Portfolio

Pursuing opportunities as a web developer, utilizing a background in Front-end and Back-end technologies to contribute effectively to Software Development in fast-paced tech environments.

Education

M.Sc. CS SPPU (Pune)
Sep 2022 - April 2024
CGPA: 7.10

B.Sc. CS SPPU (Pune)
Jul 2019 - April 2022
CGPA: 8.0

Core Competencies

- User Experience Design
- Responsive Web Design
- Database Design
- Front-end Frameworks
- Back-end Development
- Version Control

Technical Skills

- Front-end Technologies: HTML, CSS, JavaScript, JQuery, ReactJS, Redux, Material UI.
- Back-end Technologies: Node.js, Express.js
- Database Management: MongoDB, MySQL.
- Cloud Computing: AWS (EC2,S3, Elastic beanstalk).
- Version Control: Git/GitHub

Training & Certification

- Web Experts Bitcode Technologies PVT LTD
- AWS Cloud Technical Essentials Coursera

Profile Summary

- Extensive experience in Web Development, concentrating on both Front-end and Back-end technologies, while prioritizing the delivery of exceptional software solutions tailored for the technology industry.
- Previously a Web Developer Intern at Aavid Software, actively participating in the creation of cutting-edge web applications and acquiring practical experience through involvement in real-world projects.
- Possessing a comprehensive skill set that encompasses a variety of programming languages and frameworks, including HTML, CSS, JavaScript, React.js and Node.js, along with an understanding of database management.
- Realized notable enhancements in application performance and user satisfaction by effectively implementing a food delivery platform, showcasing the capability to convert user needs into operational software solutions.

Internship

Jan'24-May'24 | Web Developer (Internship) | Aavid Software

- Engaged in the full software development lifecycle, from requirements gathering to deployment, ensuring that all phases are executed with precision and attention to detail.
- Collaborated with cross-functional teams to design and implement user-friendly web applications that meet client specifications and enhance user engagement.
- Developed and maintained responsive web interfaces using HTML, CSS, JavaScript and React.js ensuring compatibility across various devices and browsers.
- Integrated back-end services with front-end components, utilizing Node.js and Express.js to create seamless user experiences.
- Conducted thorough testing and debugging of applications to identify and resolve issues, ensuring optimal performance and reliability.
- Documented code and application processes to facilitate knowledge sharing and future maintenance efforts within the development team.

Projects

- Food Delivery App**
 - Architected and implemented a highly scalable food delivery platform with the MERN stack, leading to a **30% reduction** in page load times and a **20% increase** in customer satisfaction ratings.
 - The app allows users to browse restaurant menus, place orders, and make online payments.
 - Restaurant owners can register their restaurant, add menu items, and receive orders from users, providing an efficient way to manage their offerings and orders.
- Job Portal**
 - Developed an impactful job portal as a first-year graduation project using HTML, CSS, PHP, and MySQL.
 - Seamlessly integrated front-end design with back-end functionality for a user-friendly experience.
- Simple Calculator**
 - Executed a Simple Calculator project, showcasing proficiency in web technologies.
 - Utilized HTML for the structure, CSS for a visually appealing interface, and JavaScript for seamless functionality.
- Tic Tac Toe Game**
 - Created a mini project during coursework utilizing HTML, CSS, and JavaScript.
